U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On NOVEMBER 7, 1976
- Export shipments in
Current Marketing Year
- Daily Sales reported
NOVEMBER 8 - 16, 1976
-- As Reported by Exporters

* * * * *

**NOTICE: Because of the Thanksgiving
Holiday, the next report will be issued
on Friday, November 26, 1976 at 3 PM.**

* * * * *

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of November 18, 1976 (based on reports from exporters for the week ending November 7, unless otherwise noted):

Wheat: Sales activity was modest and weekly exports continued at a reduced rate. Total sales to the USSR rose by 117,400 metric tons (MT) as sales for the 1977/78 marketing year (MY) were shifted to the current MY (previously reported under the daily system). Significant new purchases were made by Japan (93,900 MT), Egypt (79,900 MT under PL-480), and Sudan (57,300 MT). In addition, sales under the CCC credit program included Peru (27,000 MT), and Bolivia (60,000 MT). An optional origin sale to Poland of 39,000 MT was declared as U.S. origin and shipped. A new optional origin sale of 170,000 MT to Poland for 1977/78 delivery was reported under the daily system. Feed grains can be delivered under this contract depending on price relationships.

Corn: Considerable activity was reported, however, total sales rose by only 365,400 MT. Europe was responsible for most of the increase in total sales. The USSR total sales were reduced by 57,800 MT due to downward adjustments in sellers' contracts. There were numerous destination changes and contract adjustments, probably due to the severe port congestion in Rotterdam. As of November 6, about 468,000 MT of bulk commodities were waiting to be unloaded. In addition, 592,000 MT was scheduled to arrive during the following week for a total of 1,060,000 MT. Waiting periods ran to 3 weeks for larger vessels. Exports were heavy (1,417,200 MT) for the fourth consecutive week. Optional origin sales to West Germany of 49,894 MT were declared as U.S. origin.

Rice: Sales activity slowed with PL-480 sales at a standstill. Sales of 24,800 MT of long grain were switched from other destinations to Iran bringing the total for the MY to 72,900 MT. A sale originally reported to The Netherlands was switched instead to the United Kingdom and France.

Barley: Sales activity was slow with the switch of nearly 14,000 MT of unknown destination sales to East Germany the major feature. Exports continued heavy for the second consecutive week. Sales for 1977/78 delivery to Poland included 60,000 MT under the weekly system, and 80,000 MT optional origin under the daily system.

Grain Sorghum: Activity picked up with a number of new sales along with shifts in earlier reported destinations. Japan purchased 110,200 MT, bringing the total for the year to over 800,000 MT. The Netherlands bought 30,500 MT, while 45,200 MT was shifted from unknown destinations to Belgium. The pace of exports continued heavy.

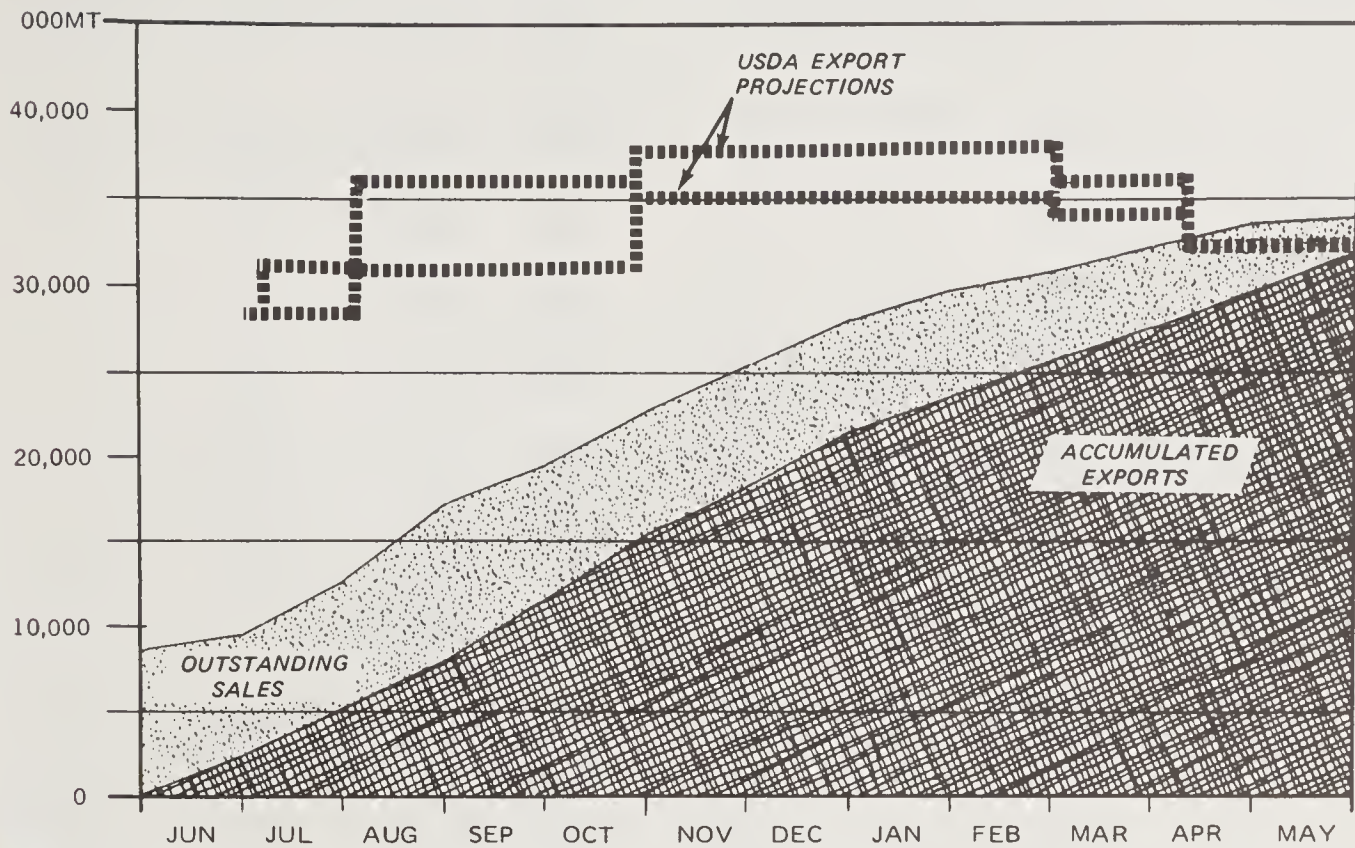

Soybeans: Total sales rose moderately (168,300 MT) with half the increase taking place in the EC. Exports were extremely heavy during the week (588,600 MT) with the EC taking 347,900 MT, Japan 113,300 MT, and Spain 49,200 MT. Factors behind the increased exports to the EC were the cessation of the milk scheme and the resultant draw down of meal stocks.

Soybean Oil: Sales activity was nil, however, exports of 26,400 MT comprised the highest weekly total of the MY.

Cotton, Oats, and Soybean Cake and Meal: Showed no significant activity.

1/ Includes contract tolerance adjustments. 2/ A separate purchase of a U.S. commodity from a foreign seller, not involved in a cancellation or buy-back of a previously reported sale. 3/ Includes decreases resulting from shifts in delivery period from one marketing year to another, changes from one commodity to another, "buy-backs" of all or part of a contract balance by mutual agreement, and unilateral cancellation by one party which could result in a contract dispute. 4/ Does not include exports for exporter's own account.

Data shown above may not add due to rounding.
